Experience

Web Designer and Developer

Freelance
May 2007 – current

Worked with clients around the country on a wide variety of projects, including design and development with Drupal, WordPress, and Django, UI/UX advisory for a location based web and mobile app, and a number of eCommerce sites.

Web Department Head

Linden, Fort Collins, CO
March 2009 – February 2011

Built the first in-house web department for a renowned marketing firm. Wrote proposals and website plans, managed projects, led sales meetings and training sessions, developed and designed websites in concert with other designers. Launched over 30 sites, primarily built on Drupal 6.

Web Developer and Systems Administrator

Vista Solutions, Fort Collins, CO
January 2006 – March 2009

Built multiple websites for internal and external purposes, including a website for a local non-profit. Ongoing support and maintenance for a Windows Server 2003 infrastructure. Assisted with planning and implementation of remote disaster recovery solutions for multiple customers.

Languages and Skills

HTML5, CSS3, JavaScript/jQuery, Python, PHP
Responsive design, designing in code, rapid prototyping, wireframing
Adobe InDesign, Illustrator, Photoshop
Proficient with Mac, a variety of Unix/Linux-based OSs, and Windows
Proficient with git and other distributed version control systems
